Mentors

Our AI Flywheel: Build fast, invest smart, hire the best, upskill continuously

AI Hackathons

Partner with us to solve your most difficult AI challenges. Within 24 h we deliver first-class solutions sourced from the best global AI talent

Start-up Investments

We invest into the most promising hackathon ideas, advisory services and enable outside investors to participate in the upside

Talent hiring

Use the hackathon to evaluate or hire new full-time or contractor staff. Alternatively, we can use our AI talent bank to find specific AI personnel for you

AI Upskilling

We want our community to be at the forefront of AI. We partner with world-renowned institutions to provide upskilling to our community and our corporate clients

Your opportunities to engage & partner with the Global MIT AI Community

- **RECEIVE** an MVP / proof-of-concept within 24-48 hours
- **HIRE** top AI talent to accelerate your AI roadmap
- **INVEST** into AI startups and drive the next generation of AI
- **ADVERTISE** your products / services to a large audience
- **MENTOR** participants and strengthen your thought leadership
- **ACCESS** to AI upskilling through executive and builder training

Timeline: We build solutions fast, help with hiring, and incubate ventures

Challenge sponsors:

- Submit challenges using google form

Hackers:

- Apply through google form
- Select preference for corporate or venture track

Round 2: We can only accept challenges/ hackers if spots are available!

Challenge sponsors:

- Review CVs of participants, send out and conduct interviews
- Send out offers

Hackers:

- Interview with companies
- Accept/ reject offers

Venture funds:

- Interview participants/ teams and conduct due diligence
- Send out funding offers

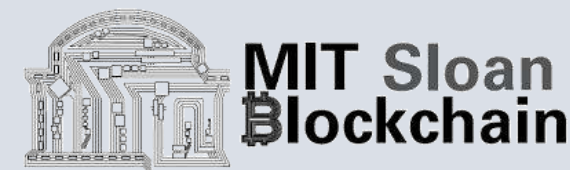

Hackers:

- Interview with VCs
- Accept funding/ incubation offers

Only participants who have not been hired in the recruiting phase are eligible for the venture phase to avoid a conflict of interest

Apply to become one of our sponsors!
